

Vasche e lavelli sottopiano raggio 12 *Undermount bowls and sinks radius 12*

Le vasche e i lavelli raggio 12 nella versione da sottopiano si installano sotto il top della cucina. Spaziano da misure minime a misure professionali, sono molto alte, con pareti verticali e angoli a raggio minimo per ottenere la massima capienza. La varietà di modelli proposta e il sistema di accessori dedicato moltiplicano esponenzialmente le possibilità combinatorie. L'area lavaggio diventa uno spazio flessibile e organizzato che si adatta in modo sartoriale ad esigenze e abitudini diverse.

Undermount bowls and sinks radius 12 are installed under the kitchen countertop. They range from minimal to professional sizes, they're very high, with vertical walls and corners with minimal radius which make them more capacious. The variety of models and the range of dedicated accessories increase exponentially the possible solutions. The washing area becomes a flexible and organised working space which can be adapted to meet perfectly all kinds of daily needs.
